Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/538,630	Applicant(s) SPRUIT ET AL.	
	Examiner Peter Agustin	Art Unit 2627	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

1. This application is a national stage entry (371) of PCT/IB03/05276, filed November 18, 2003.
2. Claims 1-5 are currently pending.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Mimmagh (US 5,835,462).

In regard to claim 1, Mimmagh discloses an optical record carrier (Figure 1A) capable of having information recorded thereon by irradiating the record carrier with a pulsed radiation beam (column 3, line 13: “recording pulses”), said record carrier comprising an area containing control information (Figure 4) indicative of a recording process by which the information can be recorded on said record carrier, the control information comprising values of recording parameters (column 5, line 2: “different recording parameters”) for the recording process, characterized in that the control information comprises a first set of recording parameters for the recording process at a first range of recording speeds, and a second set of recording parameters, separate from said first set of recording parameters, for the recording process at a second range of recording speeds (column 4, line 65 through column 5, line 5; column 6, lines 45-57: “different velocity ranges with different attendant recording parameters”).

In regard to claim 2, Mimmagh discloses that the first range of recording speeds (e.g., in Figure 4, speed V1-V2) partially overlaps the second range of recording speeds (e.g., V2-V3).

In regard to claim 3, Mimmagh discloses that at least part of the recording parameters define the sequence of pulses of the pulsed radiation beam (column 3, lines 15-18).

In regard to claim 4, Mimmagh discloses that a recording parameter is indicative of a write strategy (column 3, lines 15-18), and wherein said recording parameter has a first value in the first set of recording parameters indicative of a first write strategy and a second value in the second set of recording parameters indicative of a second write strategy (column 4, line 65 through column 5, line 5; column 6, lines 45-57: “different velocity ranges with different attendant recording parameters”).

Claim 5 has similar limitations as claim 1; therefore, it is rejected on the same grounds.

Response to Arguments

5. Applicant's arguments filed on June 30, 2008 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter Agustin whose telephone number is (571) 272-7567. The examiner can normally be reached on Monday-Thursday 8:30 AM-6:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph Feild can be reached on (571) 272-4090. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
